Customer Question & Answer Section

Question:

How to clean between Oven Window Glass?

Answer:

Step 1: Remove the drawer from below the oven

Step 2: Prepare a cleaning thin rod such as straightened metal hanger

Step 3: Attach a lint free cleaning cloth with a rubber band around the end.

Step 4: Underneath the oven window on the floor, you would see openings in between the oven glass

Step 5: Spray enough cleaning solution between the glass

Step 6: Using the metal hanger rod, you can clean in between the glass.

Step 7: Change the cleaning cloth when dirty. And use a drier cleaning cloth to fully dry the glasses,

How to clean the bottom of your iron?

Answer:

Step 1: Sprinkle a generous amount of salt onto your ironing board.

Step 2: Turn your iron to the highest setting.

Step 3: Iron over the salt. It will take out the grime and dirt.

It is a good habit to clean the bottom of the iron periodically to keep it clean and shiny.
